Summary

Brenda is an ISA Certified Arborist with a background in tree care consulting, living wall horticulture, and retail horticulture. Brenda has experience with tree inventory projects ranging in size from small homeowner properties to county parks and city-wide inventories. She also has experience preparing tree maintenance plans as well as report-writing and tree risk assessment.

Previous Work Experience

Davey Resource Group, San Francisco Bay Area, CA. I had the pleasure of working outdoors while collaborating with colleagues, landowners, and local municipalities toward a common Urban Forestry goal: to enhance the urban canopy through solutions that promote sustainable development.

Habitat Horticulture, Berkeley, CA. The opportunity to cultivate and nurture 24 indoor floor to ceiling living columns in the tallest building in the city, an outdoor succulent wall at a private residence, and a downtown rooftop garden were the highlights of this unique job experience.

Flowercraft Garden Center, San Francisco, CA. Assisting Bay Area plant enthusiasts and novices to make educated horticulture decisions on everything from soils and plant selection to managing insects, disease, and pests provided endless opportunity for growth and learning.
